RCP RECOMMENDATIONS

Can't stipulate kart decals, only numbers we can control. Needs more detail in what is not allowed, reflective could be seen as gloss because it reflects. Proposed new wording for Busselton to approve. Busselton has approved RCP change.

Current Rule Wording (if an existing rule)

New rule

Proposed Rule

23.8 g) Numbers and/or number backgrounds are not to be holographic, chrome, iridescent or translucent.

Clearly explain the new rule/changes requested.
Holographic &/or reflective numbers/nassau panels/side pods/number plate backgrounds can reflect with the sun interfering with the ability of officials from seeing the kart numbers whilst on track. Holographic &/or reflective number plates are also hard to see when racing under lights.
Despite the use of transponders, stewards & tower staff still need to be able to clearly read kart numbers without interference.

What situation/event/scenario has created this proposed rule change
Inability for a steward & tower staff to be able to correctly read a kart number due to reflection from the sun on kart with holographic/reflective numbers/stickers. Same situation has happened when racing under lights.

Are there any cost implication of this proposal?	Yes	No
Are there any implication on the AIDKA Insurance Policies?	Yes	No
Are there any changes required to the AIDKA App?	Yes	No
Are there any changes required within QuickGrid and/or Orbits?	Yes	No
Are there any changes to AIDKA Documents/Forms other than the AIDKA Rule Book?	Yes	No
If yes, what are they?		

No cost implication to AIDKA, only drivers who currently have holographic/reflective stickers on their karts
